

Project Design Engineer

GfSA Ltd Stourbridge, West Midlands

Project Design Engineer- Due to growth and expansion this is a unique opportunity for a project design engineer to join GfSA Ltd, a leading filtration company specialist in design and manufacture of process filtration equipment for the oil and gas, petrochemical, water and nuclear industries.

QUALIFICATIONS

- Ideally be educated to degree standard in Mechanical Engineering or a related discipline.

EXPERIENCE

- Ideally from project engineering background with a working knowledge of Oil and Gas process filtration equipment.
- Detailed understanding of calculation, design and fabrication of pressure vessels is required.
- AutoCAD experience is essential and 3D SolidWorks would be advantageous.
- Experience of the Oil and Gas market sector and the related specifications associated with the leading National Oil Companies (NOC's) and Engineering Procurement and Construction (EPC) contractors is desirable.

THE ROLE

- To handle contracts from receipt of order through to final commissioning.
- Liaising with global customers and agents on a day to day basis to ensure the smooth running of contracts to provide excellent customer service.
- Ensuring that documentation and product quality targets are achieved and where possible improved upon with the highest profitability.
- Assisting in the on-going continuous improvement, development and consequent growth of the Company with respect to contract engineering and customer satisfaction.
- Helping provide project engineering support to the sales team on highly specified sales enquiries primarily from the oil and gas market sector.
- Assisting sales and reviewing contracts awarded.
- Preparing all contract documentation in accordance with client detailed requirements.
- Preparing all engineering drawings and issuing to the shop floor for manufacture.
- Helping in the technical purchase of any required materials or services for the contract.
- Overseeing and liaising with production throughout manufacture.
- Completing document packs to the satisfaction of the client.
- Representing the company and visiting clients when required for contract clarifications or kick off meetings.
- Carrying out such additional duties as may become necessary from time to time to ensure the smooth running of the contracts operation.

THE PERSON

The successful applicant will be a committed, well organised and flexible team player with a professional approach. We are seeking self-motivated, enthusiastic and persistent individuals who have the ability to work with limited supervision to meet targets and deadlines. Good communication and strong interpersonal skills are essential.

THE COMPANY

GfSA Ltd design and manufactures a complete range of custom made and standard gas and liquid filtration and process equipment. We offer a total service to the Oil and Gas industry worldwide, covering the complete spectrum of engineering disciplines to include Design and Project Management, Quality Assurance and Quality Control, Materials Procurement and Manufacture.
